

POWER OF THE HUMAN TOUCH

At Nulife, we believe that the human touch can help one heal, revive and thrive.

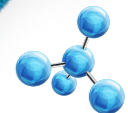

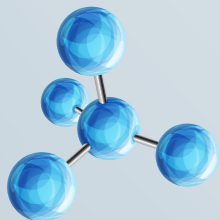

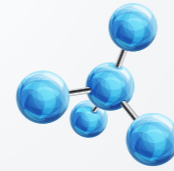

We have always put relationships over profit. The strength of our relationships is what we measure our success with.

We are in an era dominated by technology in which one almost needs to rediscover the human touch.

We never lost ours; it has only become stronger over the years.

Join hands with us and experience it yourself.

We Are Nulife.

A medical disposable solutions company with a global footprint in more than 80 countries.

Headquartered in Mumbai, with a human capital of more than 2000 people spread across the world, Nulife sells over 300 million medical disposables every year.

Nulife has been awarded several global certifications including CE under EU MDR 2017/745, GMP (South Korea), ISO 13485: 2016 and US FDA 510K for its product range. This has further accentuated the company's reputation as an industry leader.

With almost 60 years of strong presence as the leading manufacturer of medical disposables globally, Nulife reached an inflexion point in its journey in 2020.

Our largest selling brand, Nulife Triple Safety, stood for quality, affordability and availability.

Now, it was time for Nulife to take a small step, a giant leap.

It was time for Nulife to innovate and automate.

It was time for Nulife to set global benchmarks, not just local ones.

It was time for Nulife Inflexion to make its grand debut.

A brand that offered a range of speciality products surpassing international standards.

Who Are We?

1965

Started manufacturing industrial gloves

1978

Started manufacturing surgical gloves under the brand name 'Nulife'

1980

Pioneered 'Make in India': Foley Balloon Catheters, Male Incontinence Devices and Wound Drainage Tubes in India

1986

Installed a semi-automatic glove manufacturing line

1998

Installed fully-automatic dipping lines for medical gloves

2000/01

- Obtained CE mark & ISO certification
- Installed in-house ETO sterilisation equipment

2019

Addition of the 4th manufacturing facility in India

2014

Launched the popular 'Triple Safety' Sterile Surgical Gloves

2012

Installed additional production lines for Surgical Gloves

2010

Introduced Speciality Surgical Gloves

2020

Installed India's first and only Automatic Walleting Machines

2021

Received 510(k) certification for Surgical Gloves from US FDA

2021

Sold the highest number of Examination Gloves in India

2023

Added the 5th manufacturing facility in India with additional glove production lines

2022

Obtained CE certificate under EU MDR 2017/745

2022

Installed India's first and only German Thermoforming Machines

The Mantelpiece Of Milestones

Manufacturing best-in-class medical disposables.
Meeting global standards, not just local ones.

Finished Goods Warehouse

At Nulife, our pursuit of perfection has been unwavering since our inception.

Over the last 60 years, we have achieved a series of remarkable milestones.

We offer high-quality, affordable products. Since 2020, we have invested in cutting-edge automation. This includes India's first Automatic Glove Walleting Machine and the first German Thermoforming Machines for packaging gloves in SteriSafe pouches.

We also use European Virgin Long-fibre OBA-free paper for packaging, a rarity in the glove manufacturing industry worldwide.

Since then, we have not merely met global standards; we have set our own.

A true global corporate citizen, Nulife is recognised for its unwavering work ethics, sustainability-focused practices and innovation-centric approaches.

We have established a reputation for adopting the latest technology: from automated business operations to IT and AI-driven processes and acquiring global certifications.

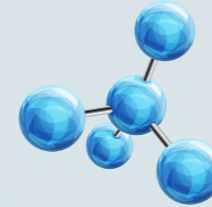

The result? Today, we are the preferred provider of medical disposable products with a 3000+ outlet network across India and a market reach spanning over 80 countries.

However, these aren't the only reasons to choose us as your trusted healing partner.

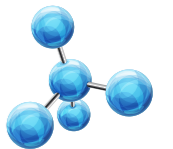

At Nulife, we firmly believe that the true power of healing lies in the human touch: a principle that guides all our thoughts, actions and aspirations.

This principle keeps us aligned with our core values, ensuring that you can always place your trust in us.

Nulife. Power of the human touch.

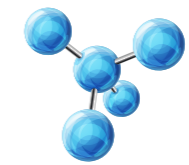

Why Us?

Our Brands

For the last six decades, we have been India's leading brand in medical disposables.

Our commitment to produce world-class products for our users across the globe continues to be unwavering.

Introducing Nulife Inflexion, a line of specialised medical disposables designed to fulfil this commitment.

Nulife Inflexion marks a turning point in our journey.

From local to global standards.

From manufacturing in India to producing for the world.

From meeting benchmarks to setting new ones.

Our materials, manufacturing processes and packaging facilities all adhere to global quality standards.

Today, Nulife Inflexion embodies a global quality accessible to users in over 80 countries.

Nulife Inflexion

Nulife Triple Safety focuses on offering affordable healthcare solutions globally.

Powered by cutting-edge innovation, Nulife Triple Safety has disrupted the status quo in its sector through cost-effective healthcare products for more than a decade.

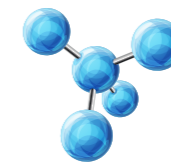

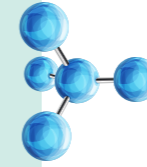

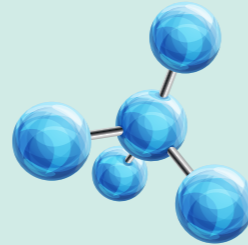

Nulife Triple Safety has three foundational pillars: quality, affordability and availability.

Quality means best-in-class products.

Affordability stands for products that are within the reach of the customer.

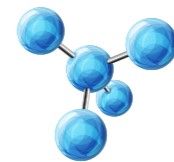

Availability involves the accessibility and timely delivery of products.

Nulife Triple Safety

Our Offerings

Surgical Gloves

The Nulife Inflexion series comprises powder-free gloves with specially formulated filler-free latex. The gloves offer the lowest modulus and are packed in our contemporary SteriSafe pouches.

Inflexion

Microsurgery Gloves

Powder-free

Our Microsurgery Speciality Gloves are thinner and have a micro-textured finish. They provide a superior feel and natural sensitivity to the fingertips during microsurgeries like ophthalmic surgeries or other minimally invasive surgeries.

Special Features

- Thinner than normal surgical gloves
- Superior sensitivity in the fingertips
- Optimum strength to ensure adequate barrier protection

Orthopaedic Gloves

Powder-free

Our Orthopaedic Speciality Gloves are designed to provide extra protection during complicated or rigorous orthopaedic surgeries involving power tools or jagged bony edges. These provide special protection against other surgical debris. The surface of the gloves is designed to maximise instrument grip and comfort.

Special Features

- Extra protection against bony fragments
- Anatomical design to reduce fatigue
- Unique brown colour for contrast

Ultra Nulife Beadless Gloves

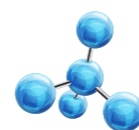

Powder-free

As compared to normal surgical gloves, Ultra Nulife Speciality Beadless Gloves offer significantly lower modulus, better sensitivity and greater comfort, making them ideal for long surgeries.

Additionally, the micro-textured, non-slip surface provides a good grip. The beadless cuff ensures improved gown grip and prevents roll-down.

Special Features

- Improved gown grip
- Lower modulus
- Enhanced comfort

Gynaecological Elbow Length Gloves

Powder-free

Our Elbow Length Speciality Gloves help doctors avoid direct contact with blood and mucous membranes that occur in 25% of vaginal deliveries and 35% of Caesarean sections. They are made from a customised latex formulation and are ideal for procedures where there is an enhanced risk of fluid contamination.

Special Features

- Specially formulated polymer coating for easy donning
- Helps doctors avoid direct contact with body fluids
- Enhanced protection

Double Pair Gloves

Powder-free

Our Double Pair Speciality Gloves are ideal for handling high-risk patients. They are specially designed to provide two sets of different coloured surgical gloves in one convenient package. The design and thickness of both gloves facilitate the ease and comfort of double donning and reduce intra-operative contamination due to micro-punctures.

Special Features

- 2-in-1 complete set of surgical gloves
- Maximum contrast to detect leaks
- Ideal for handling high-risk patients

Surgical Gloves

Our decade-old Triple Safety series of gloves have won the trust of millions of healthcare professionals globally. The latest Primo series is available in our contemporary SteriSafe pouches.

Triple Safety Primo

Latex Surgical Gloves

Pre-powdered

Our Latex Surgical Gloves are designed to be perfectly anatomical for comfortable snug fitting. The contemporary SteriSafe pouch offers the highest standard of sealing integrity.

Special Features

- Used in invasive surgery
- Micro-textured finish
- Packed in the latest SteriSafe pouch

Latex Surgical Gloves

Powder-free

Our Latex Surgical Gloves offer exceptional dexterity and enhance comfort and flexibility. The contemporary SteriSafe pouch offers the highest standard of sealing integrity.

Special Features

- Packed in a special SteriSafe pouch
- Unique, HiLeach process minimises protein content leading to lower allergies

Triple Safety

Ultra Nulife Beadless Gloves

Pre-powdered

Ultra Nulife Beadless Gloves provide ultimate safety, sensitivity and comfort.

They are packed with controlled powder levels in peel-open pouches for easy peeling and to ensure the sterility of the gloves.

Special Features

- Beadless cuff to prevent roll-down
- Ideal for long surgeries
- Enhanced comfort

Latex Surgical Gloves

Pre-powdered

Our Latex Surgical Gloves are designed to be perfectly anatomical for comfortable, snug fitting. The extremely soft rubber reduces finger fatigue and increases efficiency.

Special Features

- Option of peel-open or tear-open pouch
- Ideal for long procedures
- Uses imported cornstarch to reduce skin allergies

Latex Surgical Gloves

Powder-free

Nulife's Latex Surgical Gloves offer exceptional dexterity and enhance comfort and flexibility. The extractable NR latex protein content in these gloves is minimum, thereby reducing skin allergies.

Special Features

- Soft and flexible
- Unique, HiLeach process minimises protein content leading to lower allergies

Examination Gloves

Examination Gloves, as the name suggests, are absolutely essential while examining a patient. They are used for a wide spectrum of examination procedures and to handle surfaces, equipment and patients.

Triple Safety

Latex Examination Gloves

- Pre-powdered
- Powder-free

The Nulife family of Latex Examination Gloves are designed for multipurpose use. They are tested and proven safe against dermal sensitisation as well as skin irritation.

Special Features

- Diverse applications in medical and therapeutic procedures
- Handling infectious medical materials
- Available in pre-powdered or powder-free options

Nitrile Examination Gloves

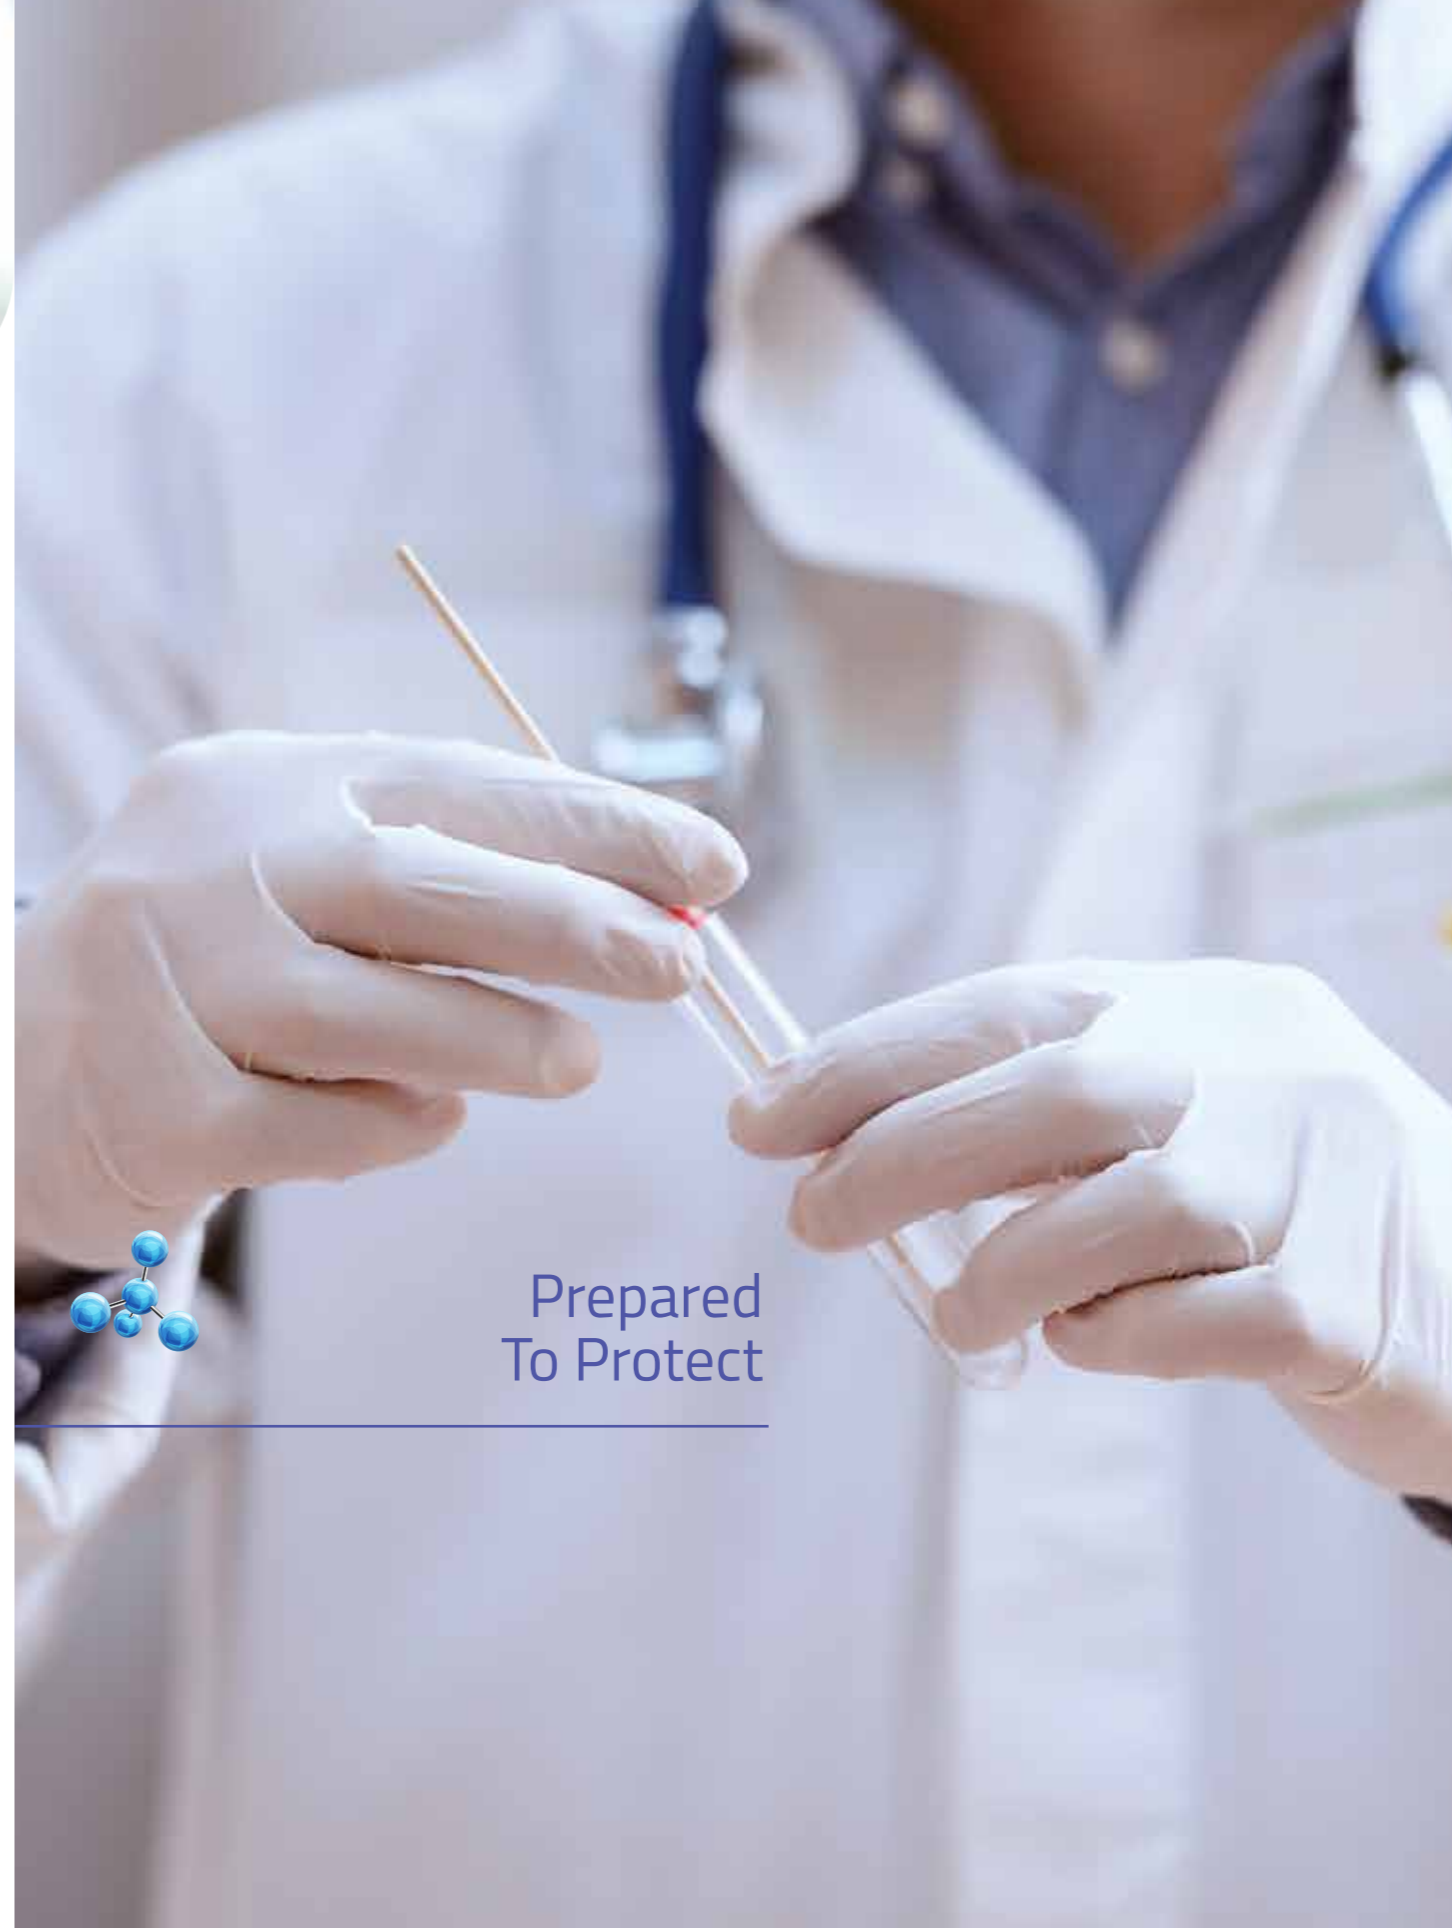

- Powder-free

These Latex-free Examination Gloves are manufactured using synthetic rubber and are ideal for people with latex allergy. The gloves are also anti-static, solvent-resistant and odour-free, making them useful in the food and dairy industry.

Special Features

- Prevents allergic user reactions
- Ambidextrous usage
- Chemical resistant

Prepared
To Protect

Urology

At Nulife, we have a range of world-class urological products to help patients maintain overall bladder health. In 1980, we locally designed and manufactured India's first Foley Balloon Catheter (FBC) and Male Incontinence Catheter.

Triple Safety

Foley Balloon Catheter

Nulife Foley Balloon Catheters have been carefully designed to ensure that the balloon materials, tips and fluid channel provide the best possible performance.

Special precautions are taken to ensure there is no balloon blockage, while offering easy, trauma-free de-catheterisation. This helps us provide the highest degree of comfort to patients while in use.

Special Features

- Blockage-free balloon
- Trauma-free de-catheterisation
- Maximum fluid flow

Male Incontinence Catheter

Nulife's U-Drain is used by males who have urinary incontinence or by those who need to urinate frequently.

It can also be used by bedridden patients. Its simple and easy-to-use design ensures that patients can use it without expert assistance.

Special Features

- Comfortable, easy-to-use, one-piece device
- Snug-fit without constriction
- Individual adhesive strip for proper fixing

Specialised Care
For Special Needs

Plastic Disposables

At Nulife, we are committed to producing disposable medical products that are designed to minimise patient discomfort and enhance doctor convenience. We use superior, medical-grade materials and adhere to all important parameters.

Triple Safety

I.V. Cannula

The venous access of the Nulife IV Cannula allows sampling of blood, as well as administration of fluids, medications, parenteral nutrition, chemotherapy and blood products. Its wings are specially designed for easy gripping and safe clamping.

Special Features

- Kink-resistant
- With an imported needle and luer lock plug
- Specially designed bevelled needle tip

Infusion Set (I.V. Set)

Nulife's Infusion Set uses super smooth tubing which minimises kink to ensure a uniform flow rate. It is used for the controlled infusion of medications over long periods.

Special Features

- Made of virgin grade, non-toxic, non-irritant PVC material
- Fluid filter provided
- Flow regulator for adjustment

3-Way Stopcock

Our 3-Way Stopcock easily controls the flow of a liquid or gas using an on/off diverter. They are designed to minimise patient discomfort and bring efficiency and convenience to your tubing applications.

Special Features

- Accurate drug administration
- Lipid-resistant
- Arrow flow indicators

Blood Transfusion Set

Nulife's Blood Transfusion Sets are designed for optimal procedural ease. The Blood Transfusion Set is used for intravascular, gravity-controlled transfusion of blood or blood elements. It uses a smooth roller clamp to facilitate easy and controlled adjustment of fluids.

Special Features

- Soft, kink-resistant, translucent tubing
- Clear chamber for visibility and access
- Specially designed roller (thumb) controller

Disposable Preparatory Blade

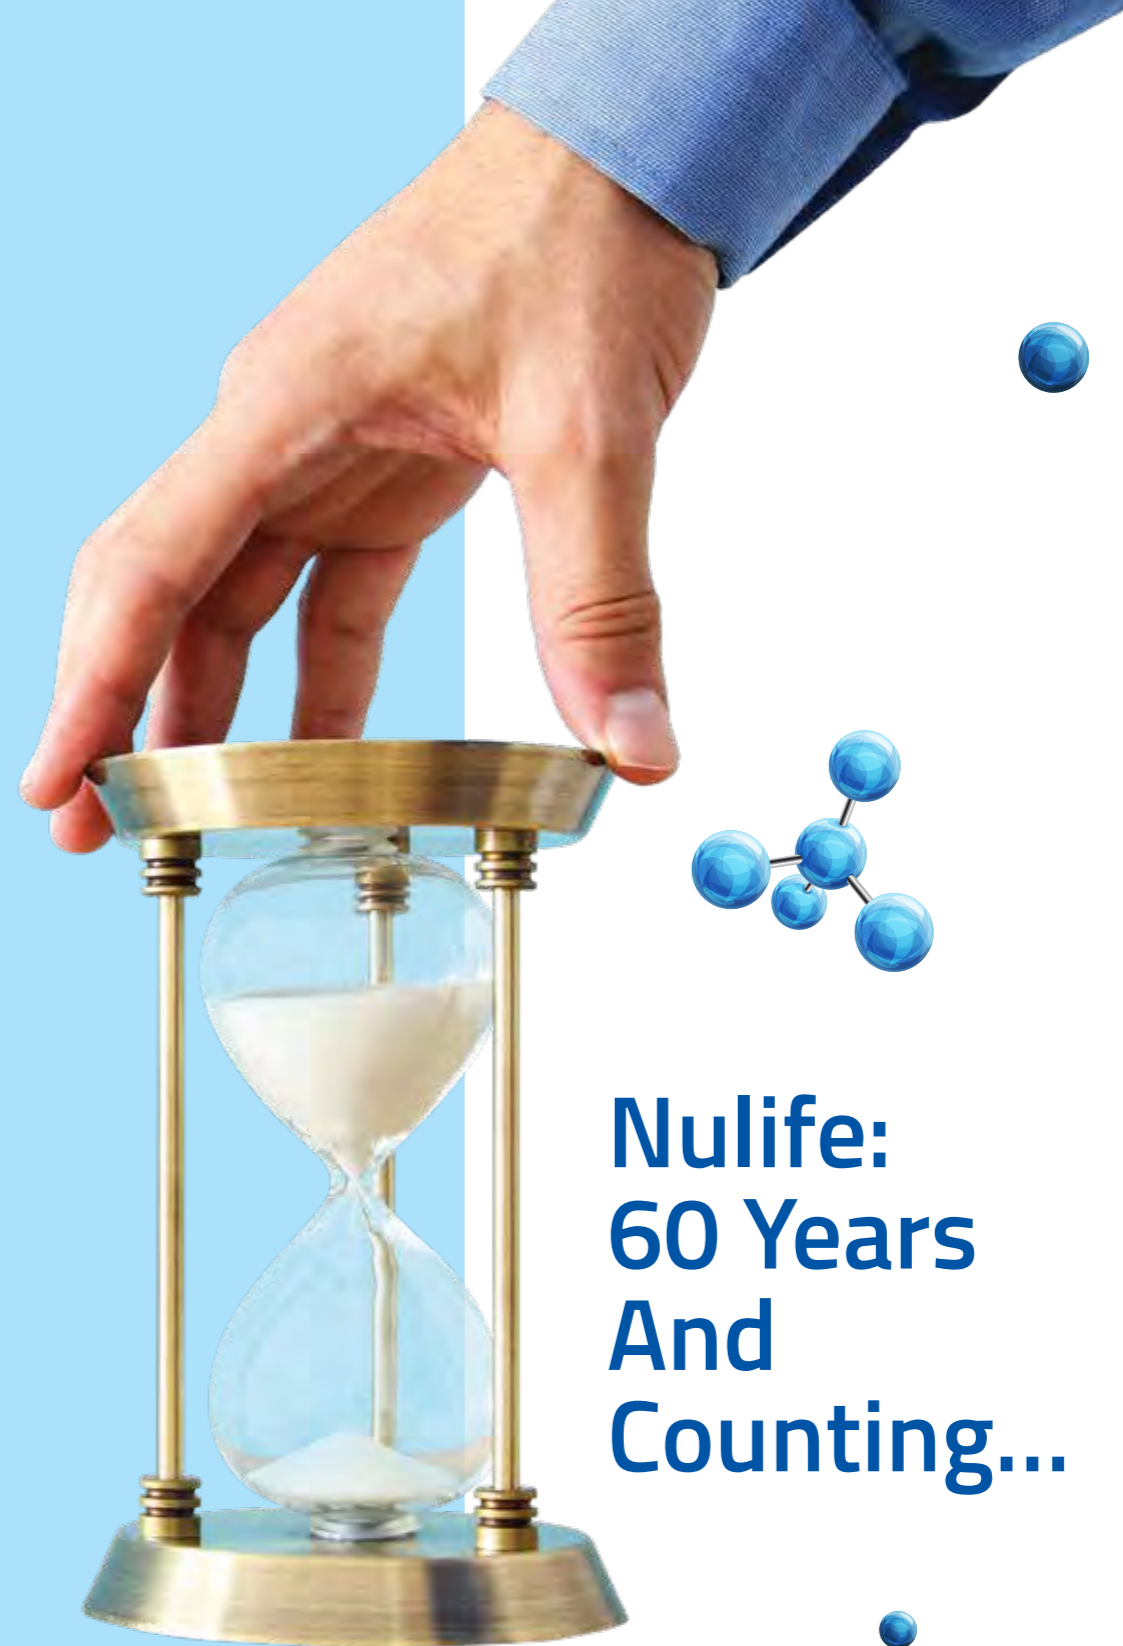

Our Disposable Preparatory Blades are made with premium stainless steel for precision and ease. These disposable preparatory blades have a plastic handle with customised linear grooves to ensure better grip even with moist hands.

Special Features

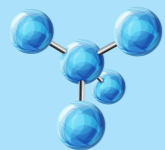

- Premium stainless steel edge blade
- Greater user safety
- Provides a perfect angle for shaving

Nulife has been manufacturing
safe, world-class medical
disposables for 60 years...

And
Counting...**

Governance

At Nulife, we prioritise occupational safety and health by ensuring safe workspaces, well-maintained machines and fire safety measures.

We maintain constant emergency readiness through drills and preventive measures and provide 24/7 on-site care for occupational injuries and illnesses.

Our fair labour practices eliminate forced as well as child labour, provide equitable compensation and comply with statutory requirements.

We have a POSH (Prevention of Sexual Harassment) policy and committee in place.

Nulife is an inclusive and an equal-opportunity employer.

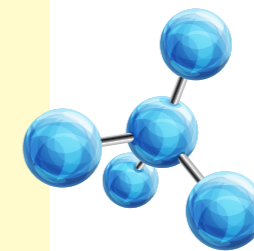

More than 50% of our workforce comprises women and differently-abled individuals.

Additionally, we provide employment to more than 1,500 residents from the nearby community, generating job prospects outside industrial areas.

We ensure a humane work environment and equal opportunities for our employees.

CSR, ESG And Future Plans

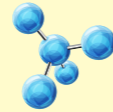

Sustainability

At Nulife, we aim to make a positive impact on both healthcare and the planet by prioritising sustainable practices and embracing innovation.

Our approach towards environment conservation starts with sustainable practices to avoid pollution of air, water or land.

We adopt the responsible use of natural resources: energy, raw materials and water. We also employ environment-friendly and clean technologies.

CSR

As part of our Corporate Social Responsibility (CSR) initiatives, we actively engage in various community projects.

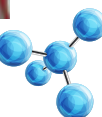

We collaborate with local healthcare organisations and charitable foundations to support medical camps, health awareness programmes and initiatives that improve access to healthcare in underserved areas.

Some of our CSR initiatives include provision of disability aids and prosthetics (Calliper and Jaipur Foot) to the disabled, distribution of protein supplements, provision of healthcare products to old age homes and food donation drives.

Our employees are encouraged to volunteer their time and skills for causes they are passionate about, further strengthening our bond with the community.

Presenting our new 'green' building spanning 200,000 sq ft. It is designed to use renewable energy to support our manufacturing and operational needs. The building also has an advanced ETP system capable of recycling waste water.

Mahesh Shah Chairman Emeritus

Mahesh Shah is the former promoter and director of our company. He has a BE (Mechanical) degree with 53 years of experience primarily in manufacturing and finance. He loves reading and has a keen interest in astrology.

Kamlesh Shah Chairman & Managing Director

Kamlesh Shah is a promoter and director of the company. He has a B.Sc (Chemistry) degree and five decades of experience in production, strategic sourcing, public policies, procurement and product regulatory activities.

Currently he mentors the senior operational team, helping them take the company to newer heights.

Sneh Shah Director & Chief Operating Officer

Sneh Shah is a promoter and director of the company. He has a B.Tech in Manufacturing along with an MBA in Technology Management.

He has over 12 years of experience in various management activities and looks after operations, finance, IT, strategic sourcing, domestic and international marketing.

Dhiren Shah Independent Director

Dhiren Shah began his career as a sub-broker in the equity market. After decades of successful operations in all spheres, he now advises companies on managing their assets and on their growth strategies.

Bharat Shah Vice President (Operations)

Bharat Shah has been with MRK for more than 43 years. He is a multifaceted person, who has successfully handled multiple assignments: from sales and marketing to export-import and factory production.

Currently, he is in charge of Capex for our expansion plans and also handles operations.

Rupesh Nagda Vice President (Strategy & Business Development)

Rupesh Nagda has almost 30 years of experience in the healthcare and IT space.

After obtaining his Biomedical Engineering degree and his MMS in Marketing from NMIMS, he has worked in different roles ranging from frontline sales and service to area sales management, product management, national sales management, commercial management, strategy management and business management.

Gautam Dalal Vice President (International Business, Procurement & Compliance)

Gautam Dalal possesses 37 years of experience, including 30 years in international business.

He currently looks after procurement, international business, regulatory affairs and compliance and has been a part of MRK for five years. He has been a dedicated Rotarian since 2003.
